

**Fakta om tabellen**

Tabellen bygger på antalet levande födda föl per hingst åren 1986-2010 enligt Svenska Hästavelsförbundets statistik samt Svenska Ridsportsförbundets tävlingsstatistik för åren 1990-2015 för avkommorna.

Endast hingstar med minst 30 föl är med, för att få någorlunda säker statistik.

De raser som omfattas är ridponny, new forest, connemara och welsh av sektionerna B, C och D.

Som tävlingsavkomma räknas en ponny som placerat sig på regional tävling eller högre, eller 5- och 6-årig ponny som placerat sig i motsvarande ungpönyavdelning.

Som kvalificerad tävlingsavkomma räknas kategori C- och D-ponny som placerat sig i lägst motsvarande medelsvår hoppning, lätt A dressyr eller medelsvår fälttävlan.

De hingstar som inte haft föl efter 1995 och de hingstar som har mindre än 10 procent tävlingsavkommor har uteslutits ur tabellen.

Placering	Namn	Avkommor födda	Ant avk tom 2010	Ant tävlande tot t	Ant kvalificerade t	Proc tävlande	Proc kval	Borttagen
